Capillarity

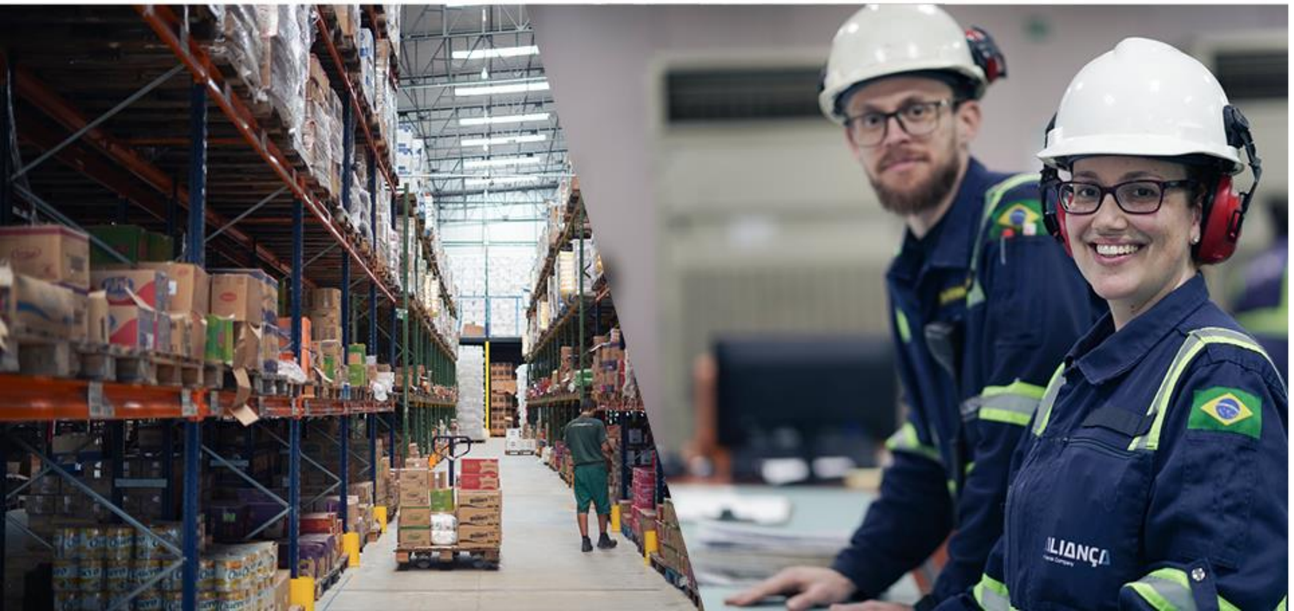
Routes from north to south and east to west of the country.

Customized Solutions

Services adapted to your business.

Specialized Team

Professionals connected with the latest market trends.



Leader in integrated logistics.
From end to end.

- Commitment to delivery on time.
- Certainty of delivery at the final destination.
- Greater security in your transportation.
- Logistics operations with 8 times less CO_2 emission.*
- Faster and more competitive transit time compared to the market.
- Lower risk of damage.

*Comparing trucking vs. cabotage.

ALIANÇA
A Maersk Company

From end to end,
to the final destination

From shipping services to trucking transport. From rail to river. From warehouse to the final destination. Along with our logistics specialists, customize a competitive and efficient solution ideal for your business.

ALIANÇA
A Maersk Company

From end to end, to the final destination

Along with our specialists, customize the ideal solution for your business. We offer competitive and efficient solutions adapted to your supply chain.

Satellite tracking

With the MonitorAli app, you can monitor your cargo in real time. With Captain Peter, you can track the temperature and humidity of your reefer cargo during the entire journey.

Insurance

Ensure more protection for your cargo with our insurance policy and reduce risks related to transportation.

Logistics experts

Your chain managed by experts from end to end.

Monitoring of reefer cargo

Online visibility of the temperature and humidity of your reefer cargo in your hands.

Long Term Contract

We offer long-term contracts to ensure more predictability and less exposure to market variations.

Distribution

Transport large batches of goods and Aliança deconsolidates and distributes them to the final destinations.

Stuffing and unloading

Attention and dynamism of our team to stuff and unload your cargo.

Warehousing

Get access to competitive storage prices and quick access to economic centers.

Railway

We are the largest partner of Brazilian railroads in container transportation, connecting the countryside to the coast with more predictability and safety. Learn more.

Cabotage

Aliança is a reference in container cabotage in the country, performing transportation by sea in an agile and efficient way Learn more.

River vessels

Optimize your logistics chain through river vessels. Our barge partners operate in the north and south of the country, with regular stops and high cargo capacity.

Escort

We can transport the cargo all the way safely and efficiently

Trucking

You can count on our own fleet of trucks and trucking partners throughout Brazil. Learn more.

ALIANÇA
A Maersk Company

Storage and distribution

Aliança has a complete portfolio to meet the warehousing and distribution needs of your logistics, which can be combined according to your company's operations. Thus, it is possible to add the services of our warehouses to the intermodal cargo transport you already know. It's much more cost-benefit, praticity and security for your business. And all this at a single point of contact.

Facilities strategically located.

Several storage options with high efficiency.

Customized storage option for each type of business.

Collection and distribution service, from the raw material to the final destination.

International standard of quality and safety.

Inventory management system with top-of-the-line WMS, with regular updates.

Did you know?

Aliança has five warehouses throughout Brazil. In addition, we are inaugurating a new facility in Suape (PE). All designed to bring your cargo closer to the main commercial centers of the country.

Deconsolidation, consolidation and cross-docking

We combine materials from different origins and deliver them to the final destination. It's reduced cost and cargo handling time, as well as increased efficiency in distribution.

Warehouses

Stock your products efficiently and secure more space in your factory for maximum production of your business.

- Receipt and storage of goods;
- Stock management;
- Inventory management;
- Picking and packing of pallets and/or boxes based on your customer's orders.

Value added service

Besides storing your cargo in the traditional way, we are also ready to serve your omnichannel operation, delivering to your points of sale.

- Repackaging;
- Palletizing;
- Quality control;
- Labeling;
- Damaged cargo management;
- Cargo separation;
- Scanning.

Fractional Load:
the logistics that fits your business

Make your operation more flexible and multiply possibilities with fractional logistics.

What is it?

Fractional Transport is the Alliança`s service that benefits companies of all types and sizes;

It makes it possible to send your fractional loads, without having to completely fill a container.

*Send from 1m³ or 1t

Benefícios

Cost savings: you only use the space needed for your cargo;

Flexibility: speed up the shipping of your goods according to your needs;

Priority: when removing cargo from the ship, releasing it from the terminal and sending it to the final destination;

Security: lower risk of robbery, theft and diversion when transporting your cargo

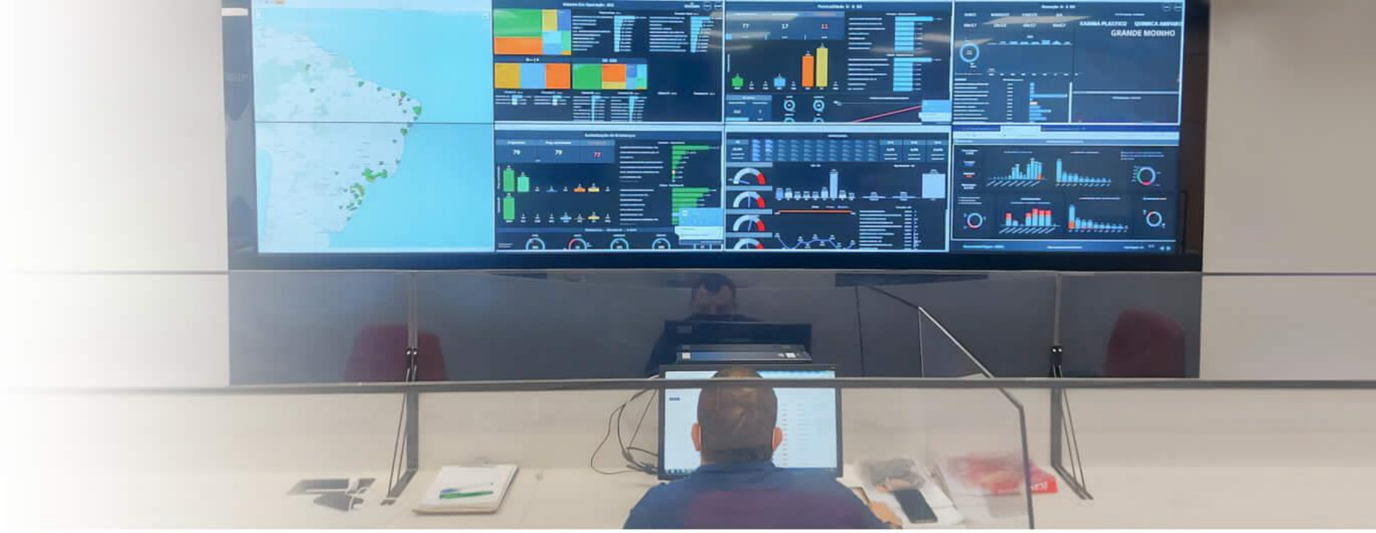
With technology, we move Brazil



Aliança, pioneer in digital innovations in integrated logistics.

In addition to our multimodal and warehousing solutions, you can rely on our tools to bring you closer to your cargo's journey and ensure greater security, risk prevention, and efficient decision-making throughout your entire logistics chain.

Torre de Controle

Aliança's entire trucking operation in Brazil is managed by the Control Tower, located in São Bernardo do Campo. There, a team of specialists monitors in real time more than one thousand daily movements.

Captain Peter

With this app, you can monitor in real time the temperature and humidity of your reefer cargo and download detailed reports.

MonitorAli

MonitorAli

With MonitorAli, you can track your cargo in real time and in the palm of your hand, whether through your cell phone or any other device, from anywhere, at any time.

PORTAL CABOTAGEM

Cabotage Portal

Through the Cabotage Portal, it is possible to schedule and quickly confirm bookings, quotes and schedule queries.

Portal Cotação Online

Quotation Portal

The Aliança Quotation Portal is an online platform that simplifies and speeds up door-to-door freight quotations, without having to contact a seller, offering special freight conditions for sea, multimodal and road transport.

ALIANÇA
A Maersk Company

North Region

To serve the North Central region, we rely on barges, a safe and fast modal that adapts to the unique geography of this region.

Whether by ship or ferry, we navigate the world's largest river basin to ensure your transportation from end to end.

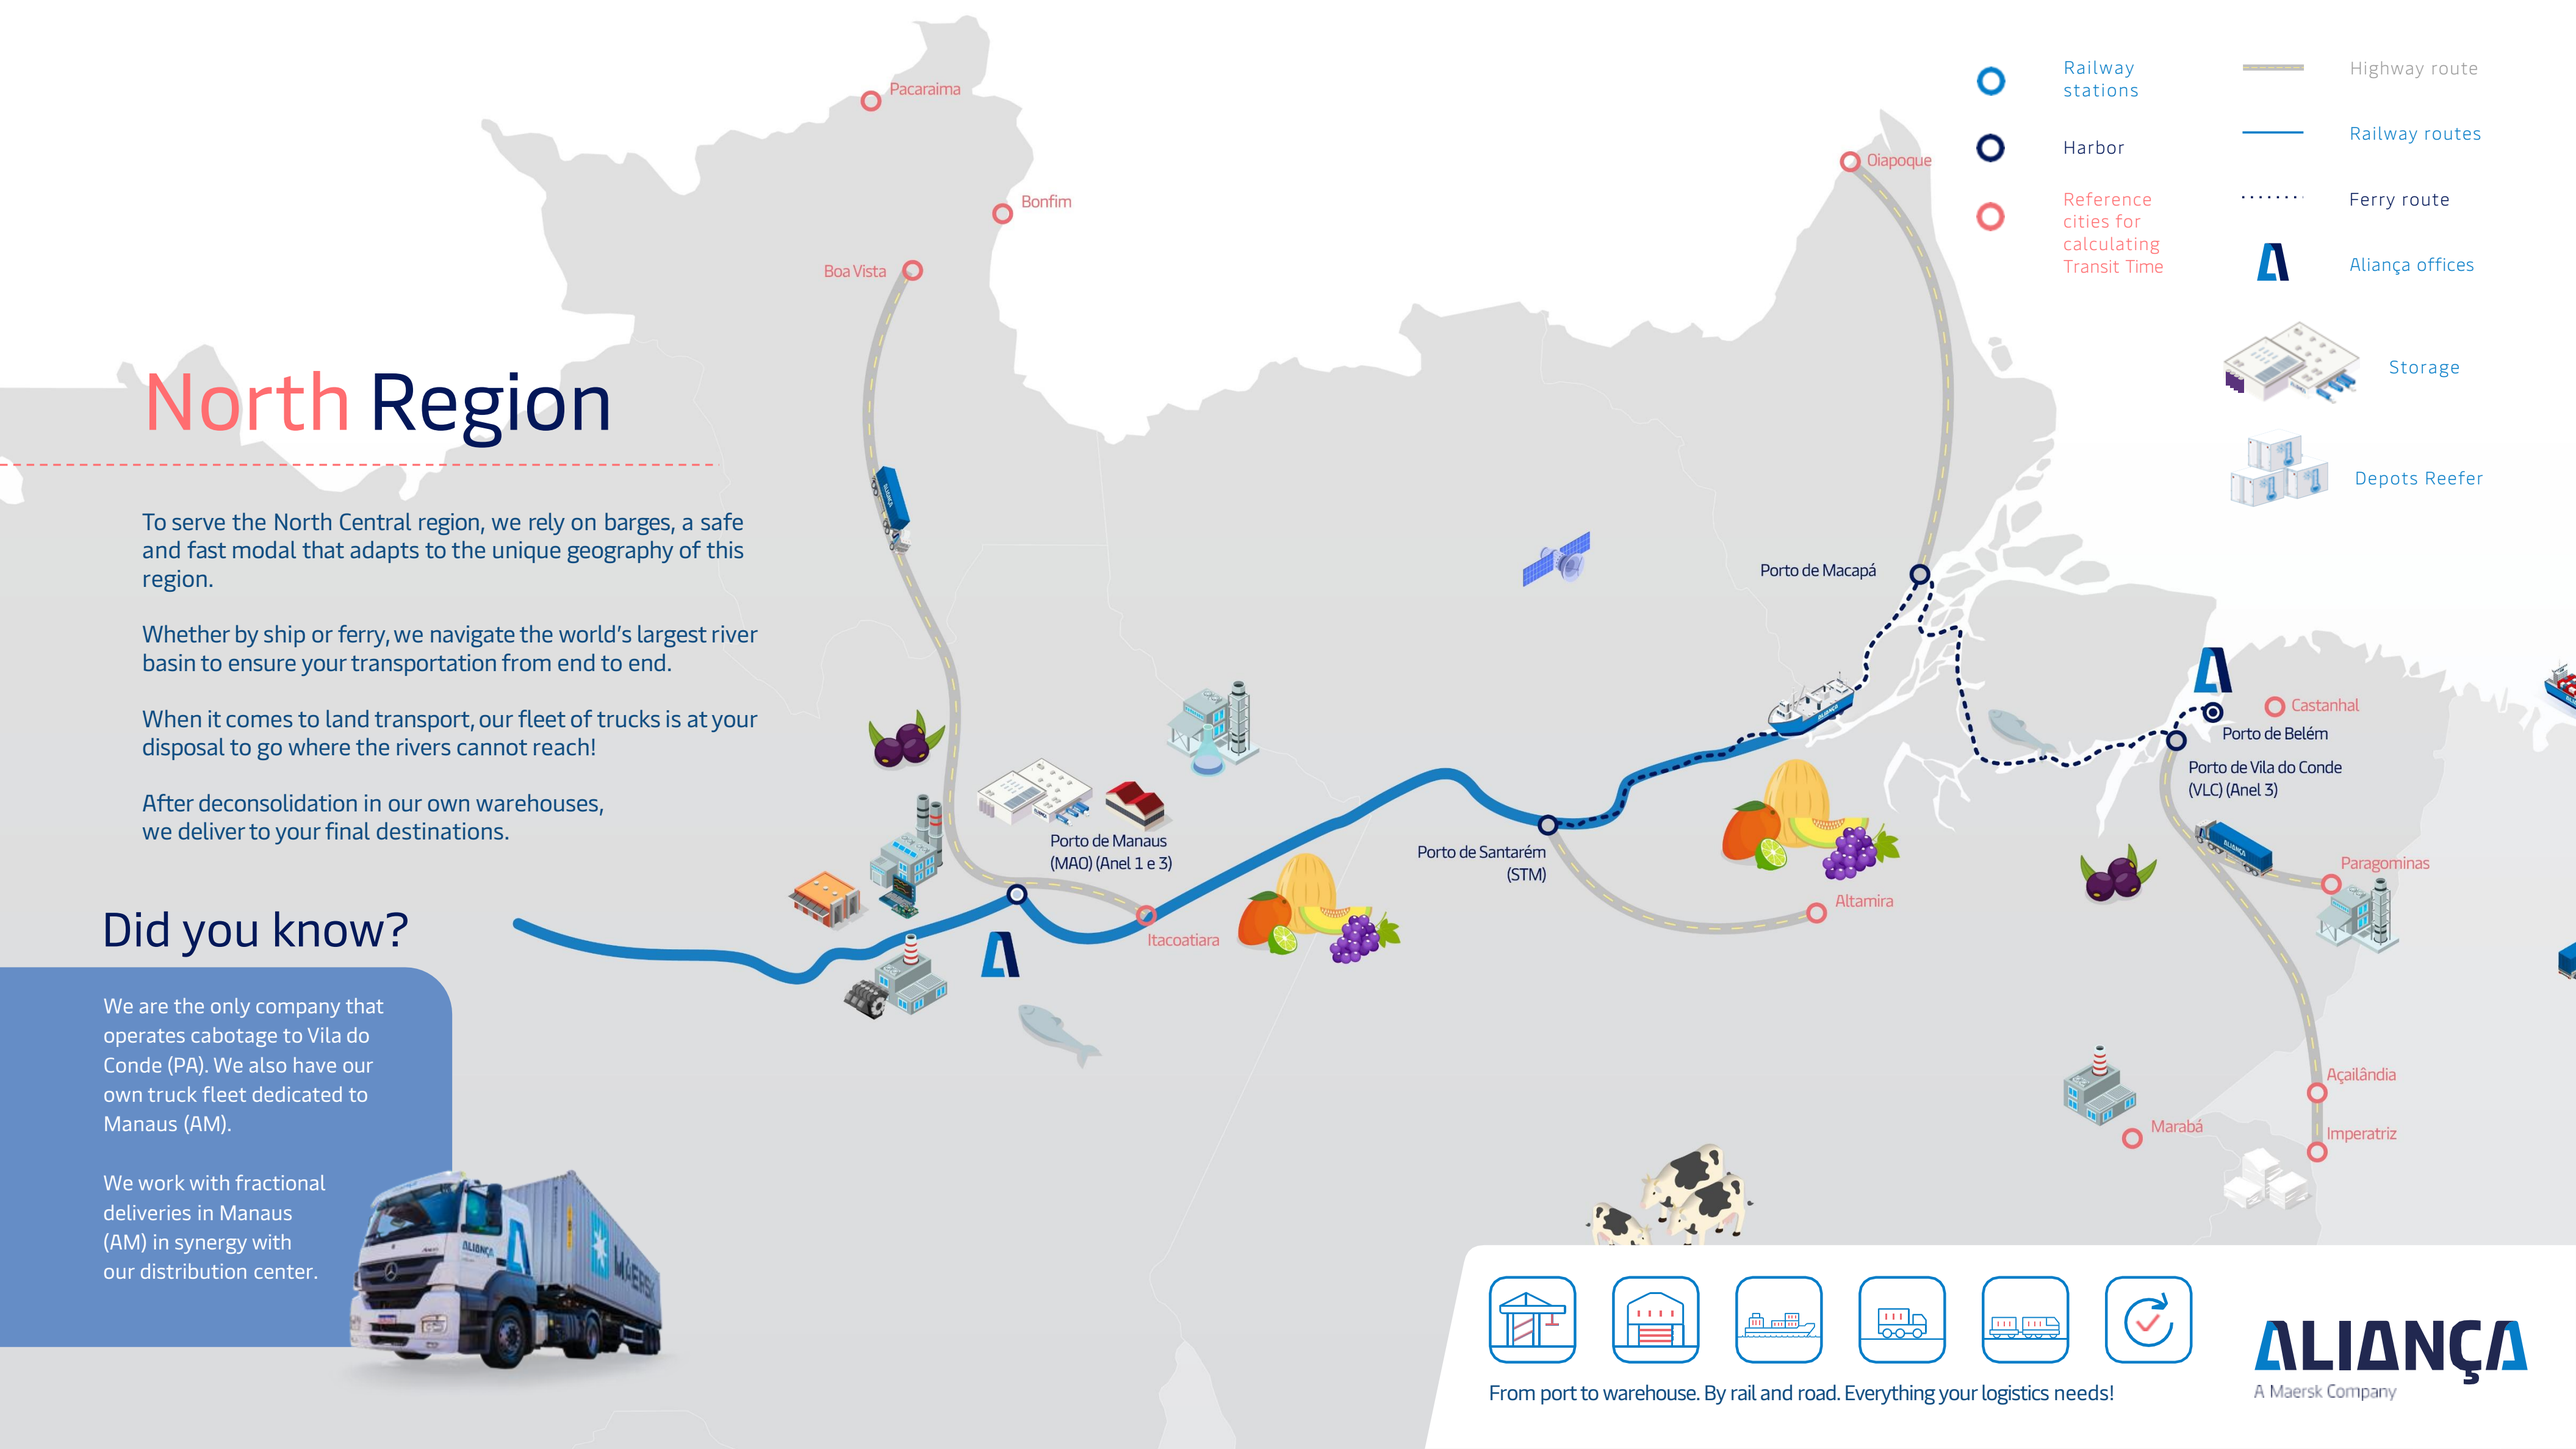
When it comes to land transport, our fleet of trucks is at your disposal to go where the rivers cannot reach!

After deconsolidation in our own warehouses, we deliver to your final destinations.

Did you know?

We are the only company that operates cabotage to Vila do Conde (PA). We also have our own truck fleet dedicated to Manaus (AM).

We work with fractional deliveries in Manaus (AM) in synergy with our distribution center.



From port to warehouse. By rail and road. Everything your logistics needs!

Meet the warehouse in Manaus (AM)

Location and size:

- Manaus, Amazonas;
- 1,100 sqm; 8 docks.

Services:

- Consolidation;
- Deconsolidation;
- Cross-docking;
- Distribution.

Benefícios:

- Close to the Port of Manaus (AM);
- Integrated solutions;
- Possibility of combining other Maersk Group services;
- Proximity to industries;
- Manaus tax incentive for certain types of business.

ALIANÇA
A Maersk Company

Shipping

ALCT 1

This route connects the North and Southeast regions of the country. It has weekly trips made by four vessels that connect six ports, two in the Southeast region and four in the North/Northeast.

In the Northeast region, the port of Pecém works as a hub, receiving three cabotage services. In Manaus, we established a solid connection between the Industrial Center and the other Brazilian states.

In the South, we delivered an excellent transit time on the Manaus x Santos stretch.

ALIANÇA
A Maersk Company

Northeast Region

This region stands out for its great productive diversity, ranging from extractivism to agriculture.

The most prominent commodities are fruits, salt, coffee, and metals. And this wide range of products requires an extensive range of logistical options.

Whether it's warehousing, distribution or transport, you can count on Aliança for your end to end operations.

Did you know?

Northeast is a region with a predominantly hot climate. In high temperatures, the use of reefer containers is essential to preserve the good condition of sensitive cargo. With the Capitain Peter app, you can monitor in real time the temperature and humidity of your reefer cargo, as well as download detailed reports.

Southeast Region

The Southeast Region has the most representative part of the Brazilian GDP, being a large consumer center and home to large industries such as the automobile, steel, paper and chemical industries. With a low environmental impact, the railway modal is abundant in this region, favoring production lines that require predictability and safety between the countryside and the coast.

In this region, our service is enhanced by warehouses that allow cost reduction, improvement in the logistical operation, and distribution of cargo to final destinations. By sea, our fleet of vessels provides safe and sustainable transportation via cabotage to all over the country!

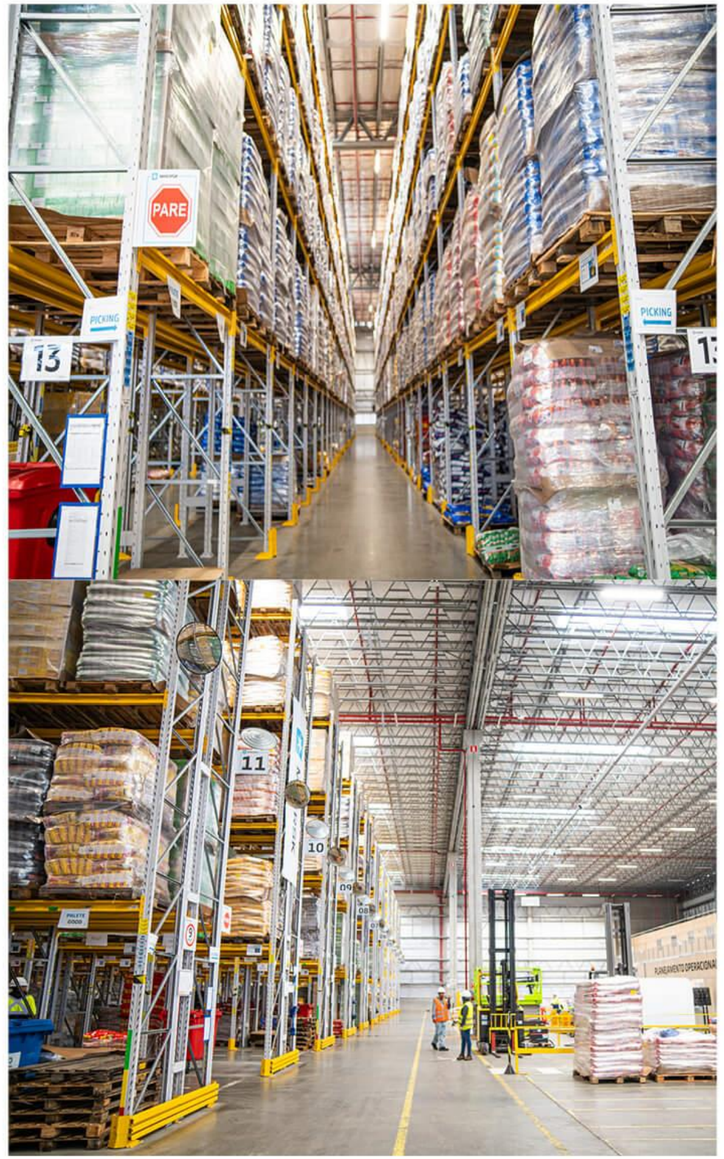
- Solar park installed;
- Lithium battery equipment;
- Rainwater harvesting system.



Market:

The warehouse is strategically located near major markets of lifestyle, retail, e-commerce, technology and fashion industry.

ALIANÇA
A Maersk Company

South Region

This region is distinguished by its extensive food production. Rice, chicken, apples, wine and dairy products are some of the main commodities in the South. Through railway and trucking modals, we are present in the main economic centers of the region, and, by means of cabotage, we reach the entire country in a fast and safe way. Furthermore, sailing on Lagoa dos Patos, our barges connect Rio Grande to Triunfo in just 12 hours.

Did you know?

70% of the Brazilian rice is produced in Rio Grande do Sul. This essential item in the Brazilian diet is distributed all over Brazil, mainly by cabotage!

From port to warehouse. By rail and road. Everything your logistics needs!
